

Panel discussion is part of the theme “Integrating land use and access”

Chair – Tony Abrahamson

Panel

Kristine Williams

Simon Nicks

John Sampson

Robby Robertson

Panel discussion 16:35 Day 1

- Chairman to introduce each topic and ask each panelist to give their position on the topic in a 2-3 minute delivery.
- After each of the panelist have talked Chair to invite the audience to ask questions and contribute with their viewpoints.
- We will deal with topics one at a time.

Panel discussion 16:35 Day 1

1. Complete streets/use of road by NMT, public transport etc - how do we achieve this on high order roads without compromising mobility?
2. Facilitation of access to land uses developments - are road authorities making life difficult for developers?
3. Allowing road corridors to generate informal business - should this be encouraged?
4. Is access management as a policy effective in promoting road safety in South Africa, or is our quest for high-speed mobility a cause of pedestrian fatalities?
5. How important is access management? - it seems to be of interest only in USA and South Africa

Panel discussion 16:35 Day 1

Topic 1.

**Complete streets/use of road by NMT, public transport etc -
how do we achieve this on high order roads without
compromising mobility?**

Panel discussion 16:35 Day 1

Topic 2.

Facilitation of access to land uses developments – are road authorities making life difficult for developers?

Panel discussion 16:35 Day 1

Topic 3.

**Allowing road corridors to generate informal business -
should this be encouraged?**

Panel discussion 16:35 Day 1

Topic 4.

Is access management as a policy effective in promoting road safety in South Africa, or is our quest for high-speed mobility a cause of pedestrian fatalities?

Panel discussion 16:35 Day 1

Topic 5.

How important is access management? - it seems to be of interest only in USA and South Africa
